M

AKTABGACHA VA AKTAB TA'LIMI

Pedagogika, psixologiya fanlariga ixtisoslashgan ilmiy jurnal

MAKTABGACHA VA MAKTAB TA'LIMI

Elektron nashr. 1316 sahifa,
3-oktyabr, 2025-yil.

BOSH MUHARRIR:

Karimova E'zoza Gapirjanovna – O'zbekiston Respublikasi Maktabgacha va maktab ta'limi vaziri

BOSH MUHARRIR O'RINBOSARI:

Ibragimova Gulsanam Ne'matovna – Pedagogika fanlari doktori, professor

TAHRIRIYAT KENGASHI A'ZOLARI

Ibragimov X.I. – pedagogika fanlari doktori, akademik
Shoumarov G'.B. – psixologiya fanlari doktori, akademik
Qirg'izboyev A.K. – Tarix fanlari doktori, professor
Jamoldinova O.R. – pedagogika fanlari doktori, professor
Sharipov Sh.S. – pedagogika fanlari doktori, professor
Shermuhhammadov B.Sh. – pedagogika fanlari doktori, professor
Ma'murov B.B. – pedagogika fanlari doktori, professor
Madraximova F.R. – pedagogika fanlari doktori, professor
Kalonov M.B. – iqtisodiyot fanlari doktori, professor
Nabiyev D.X. – iqtisodiyot fanlari doktori, professor
Qo'ldoshev Q. M. – iqtisodiyot fanlari doktori, professor
Ikramxanova F.I. – filologiya fanlari doktori, professor
Ismagilova F.S. – psixologiya fanlari doktori, professor (Rossiya)
Stoyuxina N.Yu. – psixologiya fanlari nomzodi, dotsent (Rossiya)
Magauova A.S. – pedagogika fanlari doktori, professor (Qozog'iston)
Rejep O'zyurek – psixologiya fanlari doktori, professor (Turkiya)
Woosyu Cha – Koreya milliy ta'lim universiteti rektori (Koreya)
Polonnikov A.A. – psixologiya fanlari nomzodi, dotsent (Belarus)
Mizayeva F. O. – Pedagogika fanlari doktori, dotsent
Baybayeva M.X. – pedagogika fanlari doktori, professor
Muxsiyeva A.T. – pedagogika fanlari doktori, professor
Aliyev B. – falsafa fanlari doktori, professor
G'afurov D. O. – falsafa fanlari doktori (Phd)
Shomurodov R.T. – iqtisodiyot fanlari nomzodi (PhD), dotsent
Mirzayeva F.O. – pedagogika fanlari bo'yicha falsafa doktori (PhD), dotsent
Jalilova S.X. – psixologiya fanlari nomzodi (PhD), dotsent
Bafayev M.M. – psixologiya fanlari bo'yicha falsafa doktori (PhD), dotsent
Usmonova D.I. – Samarqand iqtisodiyot va servis institute dotsenti
Saifnazarov I. – falsafa fanlari doktori, professor
Nematov Sh.E. – pedagogika fanlari nomzodi (PhD)
Tillashayxova X.A. – psixologiya fanlari nomzodi (PhD), dotsent
Yuldasheva F.I. – pedagogika fanlari bo'yicha falsafa doktori (PhD), dotsent
Doniyorov S. M. – "Yangi O'zbekiston" va "Pravda Vostoka" gazetalar tahririyati DM bosh muharriri, O'zbekiston Respublikasida xizmat ko'rsatgan jurnalist, filologiya fanlari nomzodi (PhD)
Yuldasheva D.B. – filologiya fanlari bo'yicha falsafa (PhD) doktori, dotsent
Tangriyev A. T. – Toshkent davlat iqtisodiyot universiteti kafedra professori
Ashurov R. R. – psixologiya fanlari bo'yicha falsafa doktori (PhD)
Panjiyev M. A. – Qashqadaryo viloyati Maktabgacha va maktab ta'limi boshqarmasi boshlig'ining birinchi o'rinbosari
Xudayberganov N. A. – Xorazm Ma'mun akademiyasi Tabiiy fanlar bo'limining katta ilmiy xodimi, biologiya fanlari bo'yicha falsafa doktori (PhD)

Muassis: "Tadbirkor va ishbilarmon" MChJ

Hamkorlarimiz: O'zbekiston Respublikasi Maktabgacha va maktab ta'limi vazirligi, O'zbekiston milliy pedagogika universiteti

EDITOR-IN-CHIEF:

Karimova E'zoza Gapirzhanovna – Minister of Perschool and School Education of the Republic of Uzbekistan

DEPUTY EDITOR-IN-CHIEF:

Ibragimova Gulsanam Ne'matovna – Doctor of Pedagogical Sciences, Professor

EDITORIAL BOARD MEMBERS:

Ibragimov X.I. – Doctor of Pedagogical Sciences, Academician

Shoumarov G'. B. – Doctor of Psychological Sciences, Academician

Qirg'izboyev A. K. – Doctor of Historical Sciences, Professor

Jamoldinova O.R. – Doctor of Pedagogical Sciences, Professor

Sharipov Sh.S. – Doctor of Pedagogical Sciences, Professor

Shermuhhammadov B.Sh. – Doctor of Pedagogical Sciences, Professor

Ma'murov B.B. – Doctor of Pedagogical Sciences, Professor

Madraximova F.R. – Doctor of Pedagogical Sciences, Professor

Kalonov M.B. – Doctor of Economic Sciences, Professor

Nabiyev D.X. – Doctor of Economic Sciences, Professor

Koldoshev K. M. – Doctor of Economic Sciences, Professor

Ikramxanova F.I. – Doctor of Philological Sciences, Professor

Ismagilova F.S. – Doctor of Psychological Sciences, Professor (Russia)

Stoyuxina N.Yu. – Candidate of Psychological Sciences (PhD), Associate Professor (Russia)

Magauova A.S. – Doctor of Pedagogical Sciences, Professor (Kazakhstan)

Rejep O'zyurek – Doctor of Psychological Sciences, Professor (Turkey)

Wookyu Cha – President of the National University of Education, Korea (South Korea)

Polonnikov A.A. – Candidate of Psychological Sciences (PhD), Associate Professor (Belarus)

Mizayeva F. O. – Doctor of Pedagogical Sciences, Professor

Baybayeva M.X. – Doctor of Pedagogical Sciences, Professor

Muxsiyeva A.T. – Doctor of Pedagogical Sciences, Professor

Aliyev B. – Doctor of philosophy, professor

Gafurov D. O. – Doctor of Philosophy (PhD)

Shomurodov R.T. – Candidate of Economic Sciences (PhD), Associate Professor

Mirzayeva F.O. – Doctor of Philosophy in Pedagogical Sciences (PhD), Associate Professor

Jalilova S.X. – Candidate of Psychological Sciences (PhD), Associate Professor

Bafayev M.M. – Doctor of Philosophy in Psychological Sciences (PhD), Associate Professor

Usmonova D.I. – Associate Professor, Samarkand Institute of Economics and Service

Saifnazarov I. – Doctor of philosophy, professor

Nematov Sh.E. – Candidate of Pedagogical Sciences (PhD)

Tillashayxova X.A. – Candidate of Psychological Sciences (PhD), Associate Professor

Yuldasheva F.I. – Doctor of Philosophy in Pedagogical Sciences (PhD), Associate Professor

Doniyorov S. M. – Editor-in-Chief of the Editorial Board of the newspapers "Yangi Uzbekiston" and "Pravda Vostoka", Honored Journalist of the Republic of Uzbekistan, Candidate of Philological Sciences (PhD)

Yuldasheva D.B. – Doctor of Philosophy (PhD) in Philological Sciences, Associate Professor

Tangriyev A.T. – is a professor of Tashkent State University of Economics

Ashurov R. R. – doctor of philosophy (PhD) in psychology

Panjiyev M. A. – First Deputy Head of the Department of Preschool and School Education of the Kashkadarya Region

Khudaiberganov N. A. – Senior Researcher of the Department of Natural Sciences of the Khorezm Mamun

Academy, Doctor of Philosophy (PhD) in Biological Sciences

“Maktabgacha va maktab ta’limi” jurnali O‘zbekiston Respublikasi Oliy attestatsiya komissiyasining quyidagi qarorlariga asosan pedagogika va psixologiya fanlari bo‘yicha falsafa doktori (PhD) hamda fan doktori (DSc) ilmiy darajasiga talabgorlarning dissertatsiyalaridagi asosiy ilmiy natijalarni chop etish uchun milliy ilmiy nashrlar ro‘yxatiga kiritilgan:

Pedagogika fanlari bo‘yicha: OAK Kengashi tavsiyasi (26.08.2024-y., №11-05-4381/01) asosida:

- Ekspert kengashi (29.10.2024-y., №10)
- Rayosat qarori (31.10.2024-y., №363/5)

Psixologiya fanlari bo‘yicha: Toshkent davlat pedagogika universiteti murojaatiga asosan OAK tavsiyasi (24.04.2025-y., №11-05-2566/01):

- Ekspert kengashi (25.05.2025-y., №10)
- Rayosat qarori (08.05.2025-y., №370/5)

“Maktabgacha va maktab ta’limi”
jurnali

26.09.2023-yildan

O‘zbekiston Respublikasi Prezidenti
Administratsiyasi huzuridagi Axborot
va ommaviy kommunikatsiyalar
agentligi tomonidan **№C-5669363**
reyestr raqami tartibi bo‘yicha
ro‘yxatdan o‘tkazilgan.

Litsenziya raqami: **№136361**

MUNDARIJA

The Use of Innovative Pedagogical Technologies in the Development of Critical Thinking	16
<i>Gulnar Atakhanova Orinbaevna</i>	
Current Aspects of Designing and Implementing Extracurricular Educational Activities at the Primary General Education Level.....	20
<i>Amankosova Dinara Gabitovna</i>	
Maktabgacha ta'lim tizimida tarbiyachi shaxsiyati va kasbiy mahorati shakllanishining nazariy asoslari....	24

SPECIFICS OF TEACHING PROFESSIONAL TERMINOLOGY TO STUDENTS OF ECONOMIC SPECIALTIES

Хамдамов Рамзбек Мадаминжонович

Ферганский государственный технический университет
Ассистент кафедры “Узбекского языка и обучения языкам”

Abstract: This article demonstrates the necessity of an in-depth study of economic terminology by students of economic specialties within the discipline Foreign Language. Current global economic conditions dictate the need to improve the professional skills of specialists in the field of economics, including knowledge of foreign languages. The article discusses the main topics and vocabulary that students must master for use in their future professional activities. The main methods of introducing and memorizing new vocabulary are proposed. Recommendations are also provided on how to avoid common difficulties when learning professional vocabulary.

Key words: foreign market, foreign language for professional purposes, market and command economy, demand, supply, flashcards, spaced repetition method, gamification, improvement of professional competencies.

Annotatsiya: Ushbu maqolada iqtisodiyot yo'nalishi talabalari tomonidan Chet tili fanida iqtisodiy terminologiyani chuqur o'rganish zarurati yoritilgan. Jahondagi iqtisodiy sharoitlar iqtisodiyot sohasi mutaxassslarining kasbiy malakasini, jumladan, chet tillarini bilish darajasini oshirishni talab qilmoqda. Maqolada talabalarning kelajakdagi kasbiy faoliyatida qo'llashlari lozim bo'lgan asosiy mavzular va leksika tahlil qilinadi. Shuningdek, yangi so'z boyligini kiritish va esda saqlashning samarali usullari taklif etiladi hamda kasbiy lug'atni o'rganishda uchrashi mumkin bo'lgan qiyinchiliklarni bartaraf etish bo'yicha tavsiyalar beriladi.

Kalit so'zlar: xalqaro bozor, kasbiy maqsadlar uchun chet tili, bozor va rejali iqtisodiyot, talab, taklif, fleshkartalar, intervalli takrorlash usuli, o'yinlashtirish, kasbiy kompetensiyalarni rivojlantirish.

Аннотация: В статье показана необходимость углубленного изучения экономической терминологии студентами экономических специальностей в рамках дисциплины Иностранный язык. Современные экономические условия диктуют требования к повышению профессиональной квалификации специалистов в области экономики, включая владение иностранными языками. Рассматриваются основные темы и словарный запас, который студенты должны освоить для применения в будущей профессиональной деятельности. Предлагаются основные методы введения и запоминания новой лексики. Даны рекомендации по преодолению возможных трудностей при изучении профессиональной терминологии.

Ключевые слова: внешний рынок, иностранный язык для профессиональных целей, рыночная и командная экономика, спрос, предложение, карточки, метод интервального повторения, геймификация, повышение профессиональной компетентности.

INTRODUCTION

The market economy dictates its own terms of operation in various industries. Many economists have the opportunity to engage in international cooperation in banking and other financial sectors. Many companies are entering foreign markets, and economists therefore need to expand their professional knowledge in the economic, foreign economic, stock market, and financial fields. The task of a teacher who teaches a foreign language for professional purposes is to teach students to use a foreign language in situations related to their future professional activities.

In reality, there is no specific methodology for teaching foreign languages to students of a particular specialization. In practice, teachers choose the necessary teaching materials and develop a curriculum for each specific case, taking into account the skills and competencies that economics students acquire while studying their core subjects ^[1, 4]. Of course, it is also necessary to take into account the level of knowledge of students not only in a foreign language, but also in their future specialization.

Unfortunately, the number one problem for students of economics is that the vast majority of textbooks on professional English introduce specialized terms in the first year, which students only begin to learn in the second year when studying core subjects. For example, the textbook by E. V. Glushenkova and E. N. Komarova, *English for Economics Students*, begins with texts on topics such as Market and Centrally Planned Economies, Supply and Demand, and also covers such areas of economics as factors or means of production, various types of trade, financial markets, the basics of banking, taxation, accounting, and auditing ^[3].

Thus, students lack the theoretical knowledge to understand texts on economic topics in a foreign language. This situation slows down the learning of specialized foreign-language vocabulary, but students are subsequently grateful for their initial introduction to the terminology, as it makes it easier for them to study in higher years.

The basis of textbooks on the subject of Foreign Language for students of economic specialties are always texts on various economic topics that introduce students to new vocabulary and gradually bring their knowledge of this vocabulary to the point where they can prepare an independent presentation or report in a foreign language at a conference on economic issues ^[5, 6]. As a rule, these topics include: microeconomics and macroeconomics, GDP, production and markets, prices and money, supply and demand, investments, loans and credits, stock exchange, currency, and exchange rates, etc.

LITERATURE REVIEW

The study of economic terminology in the context of foreign language learning has been the focus of many researchers in Russia and abroad. Glushenkova and Komarova emphasized that the mastery of professional vocabulary is central for students of economic specialties, since most authentic materials in economics – from banking to taxation – are based on specific terminology that differs significantly from general English. Similarly, Men'shikova stressed the importance of providing learners with reference tools that make economic vocabulary more accessible and systematic.

Sheveleva pointed out that textbooks designed for students of economics should integrate both linguistic and subject-specific knowledge, enabling learners to understand authentic texts in their future professions. Dictionaries and explanatory guides, such as those compiled by Anikin and later developed in concise editions on finance and statistics, contributed significantly to the codification of economic terms. These resources remain important in supporting learners as they face challenges related to false cognates and the complexity of economic discourse.

Internationally, Horngren and Sundem demonstrated that the integration of professional terminology into accounting education enhances students' competence not only in language but also in core economic understanding. Their approach highlights the link between vocabulary acquisition and the development of professional skills. Furthermore, studies on memory and pedagogy, including the works of Rozum and Bordovskaya, underline that techniques like spaced repetition and structured exposure to authentic texts help strengthen long-term retention of economic terms, thereby improving learners' readiness for professional communication.

RESEARCH METHODOLOGY

Communicative Approach to Vocabulary Learning

The use of a communicative approach in learning new economic vocabulary is absolutely essential in the learning process. In other words, we consider a foreign language, and specifically in this case an aspect such as vocabulary, only as a tool for carrying out certain situationally justified communications. The purpose of communication determines the choice of specific vocabulary and the format of its use, since the student must ultimately feel confident in a real professional communication situation and possess the necessary skills to create and conduct a professionally adequate dialogue depending on the specific request.

With a sufficiently good level of professional vocabulary, you can move on to role-playing games or case studies in the classroom, which will bring students closer to the real-life application of the knowledge they have acquired.

Teaching Techniques for Economic Terminology

When studying a foreign language for a specific purpose for use in professional activities, vocabulary comes first, since vocabulary in the field of economic knowledge is fundamentally different from the vocabulary of everyday English. Banking, the currency market, the securities market, foreign economic contracts, investment projects – everywhere the vocabulary is specific in its use ^[7].

Students of economics will have to learn many new terms. There are several methods that can be used here, ranging from simple "cramming," which is quite suitable for some students, to game-based methods, which are, of course, much more exciting.

Spaced Repetition Method

An effective way to memorize a large number of new terms is the spaced repetition method, which has long been tried and tested and is used in the process of learning foreign languages both in our country and abroad. This technique involves repeating the material covered at certain intervals.

If you need to learn words quickly (for example, when preparing for exams, tests, or conferences), you should repeat them immediately after introducing new material, the second repetition after 15–20 minutes, the third after 6–8 hours, and the last repetition after 24 hours. However, in this case, short-term memory is used and the words will not be remembered for long.

For more long-term results, other repetition intervals are necessary. The first repetition should be done immediately after learning the new material. The second should be done 20–30 minutes later, the third after one day, the fourth after 2–3 weeks, and the fifth after 2–3 months.

Flashcards and Digital Technologies

Many teachers claim that the use of flashcards, which are well known to students, in interval repetition technology is very effective in activating the memorization process, with the word written on one side and the translation on the other. You can also use modern digital technologies, which complement this long-established tool and update it. There are quite a few programs and websites for interval repetition. The most user-friendly ones are Anki and Quizlet, which offer a wide range of options for creating flashcards with multimedia components. Therefore, when learning a foreign language in a modern higher education institution, it is recommended to make the most of modern digital technologies that help boost the learning process.

Gamification

One of the current trends in foreign language teaching is gamification – the introduction of game elements into the learning process to facilitate faster and easier assimilation of material, in this case economic terminology. An example of this approach is as follows: the teacher asks students to take turns giving a definition, i.e., describing an economic term, while the rest of the group guesses and names the term in English. In this way, students not only learn the term, but also practice their English vocabulary and memorize its definition. The competitive element also helps to activate the process – the group can be divided into two teams and points awarded for correct answers.

Selection of Teaching Materials

The main principle for selecting vocabulary for textbooks is frequency of use. Texts from magazine and newspaper articles and business correspondence are purely practical in nature; they help develop the ability to understand the situational need to use economic vocabulary in English ^[15].

Examples of the use of authentic texts include English for Banking and Finance by Pearson or In Company by Macmillan. The In Company series of textbooks covers various areas of economics – investment, logistics, sales, corporate finance. A separate textbook has been published for each area, offering a variety of real-life situations related to the work of economists, as well as listening exercises with examples of live dialogues that help students develop the communication skills necessary for business communication in English.

ANALYSIS AND RESULTS

Common Pitfalls in Learning Economic Terminology

Terminology in the field of economics requires a thorough knowledge of the economic discipline and the nuances of the use of terms. For clarity, let us examine several examples that illustrate the specific difficulties students encounter.

Example 1: The word “cost”

Many students, even those with an average knowledge of the language, know the translation of this word – “cost.” However, in the plural form, the word “costs” means “expenses.” Thus, production costs are the expenses of production, i.e., the total costs of manufacturing a product, and capital costs are the costs of fixed capital. When the word “variable” is added – variable capital costs – we get an expression meaning “variable capital expenditures.” In the phrase calculation of costs – cost calculation – we get another meaning of the word “costs.” This example shows how carefully one must approach the use and translation of terms.

Example 2: The word “contract”

Since this word has been borrowed into Russian and is synonymous with the Russian word договор (agreement), students have no problems translating it. Thus, it is obvious that a long-term contract is a long-term contract, and an open-end contract is a contract without a specified term. However, when translating the phrase barter contract into English, it is easy to fall into a trap, since in English it is barter transaction ^[5].

Example 3: The word “credit”

Students easily translate bank credit as bank loan and consumer credit as consumer loan. However, a soft loan is a “soft loan.”

Example 4: False friends of the translator

There are other pitfalls too – so-called false friends of the translator, i.e., words that look similar to familiar Russian or English words. For example, many students, without thinking twice, translate the word interest as “interest,” whereas in economic texts this word means percentage – i.e., the fee received by the lender from the borrower for the use of the loan.

All of the above proves one obvious thing: students of economics will have to learn many new terms, and careful attention must be paid to context and proper usage.

Educational Outcomes

Learning professional vocabulary broadens students’ horizons, prepares them for future work in their chosen field of economics, and creates additional motivation to learn a foreign language. By using new words and expressions, students also reinforce the material studied in lectures on specialized subjects, and since interest in the profession is reinforced by additional reading of relevant authentic texts on economics, it is safe to say that a specialist with such training can expect a more interesting and highly paid job ^[10, 12].

All of the teacher’s work in this regard is essentially preparation for the possible use of a foreign language directly in the workplace or for reading literature on economic topics to improve one’s professional qualifications in the future.

The solid knowledge of the terminology of the foreign language studied enables future specialists in the field of economics to pay attention to the latest news on economics and opportunities for expanding contacts with potential business partners, as well as motivates them to continue reading specialized literature not only in their native language, but also in a foreign language, thereby increasing their professional value and significance.

As a result, we get a much higher level of professional, capable of interacting in their field of expertise more effectively and confidently. There are many textbooks for students of economics, including high-quality domestic textbooks and textbooks from leading foreign publishers.

The challenge remains that students often encounter specialized terminology before they have adequate theoretical grounding in their core economic subjects. However, this early exposure, while initially difficult, ultimately benefits students as they progress through their studies. The key is to balance the introduction of new terms with practical application through various teaching methods.

The combination of traditional methods like spaced repetition with modern digital tools and gamification creates a more engaging and effective learning environment. Students respond well to competitive elements and interactive exercises that reinforce both vocabulary acquisition and definitional understanding.

It is worth noting that the teacher’s role extends beyond simple vocabulary instruction. The work involves preparing students for real-world application of language skills in professional contexts, whether that is direct workplace communication or ongoing professional development through specialized literature.

The communicative approach proves particularly valuable because it frames vocabulary not as isolated items to memorize, but as tools for accomplishing specific professional tasks. This practical orientation helps maintain student motivation and ensures that the vocabulary they learn has immediate relevance to their future careers.

CONCLUSION AND SUGGESTIONS

The teaching of professional economic terminology to students of economic specialties requires a multi-faceted approach that combines traditional pedagogical methods with modern technologies and interactive techniques. While students face significant challenges – including the timing mismatch between language instruction and core economic courses, the complexity of economic terms, and the presence of false cognates – these obstacles can be overcome through careful instruction and appropriate teaching methods.

The spaced repetition method, enhanced by digital flashcard platforms such as Anki and Quizlet, provides an effective foundation for long-term vocabulary retention. Gamification adds engagement and accelerates the learning process. Most importantly, the communicative approach ensures that students view vocabulary as a practical tool for professional communication rather than abstract knowledge to be memorized.

Ultimately, strong command of economic terminology in a foreign language significantly enhances students' professional prospects and enables them to participate effectively in the global economy. The investment in vocabulary instruction pays dividends throughout students' careers as they continue to engage with international literature, partners, and opportunities in their field.
